Organised by: IRSC and IL & FS

TERMS AND CONDITIONS

1. You are expected to come up with new and innovative ideas; any idea that has been copied from somewhere will be disqualified
2. You should not infringe any third party's intellectual property or privacy.
3. The decisions made by the organisers and the jury regarding the prize money and participation are final and binding on the participants.
4. IRSC and Toyota would have the right to use the products as developed during the Hackathon.

Event Location:

LHC, IIT Delhi
Hauz Khas, New Delhi
Phone: +91 88 26 080933
+91-9631006343
Email: info@road-safety.co.in

Rounds:

The event is divided into phases.

Phase 1-

A basic online preliminary test will be conducted for all the students of class 9th and 12th of Delhi/NCR schools. Shortlisted teams will be invited for the final round at IIT Delhi on 17th and 18th December.

Phase 2-

The finale will include technical and interactive lectures on road safety so as to teach some basic technical skills will be provided for moving ahead with the Hackathon. The teams will be given 21 hours to work on any of their idea with the presence of experts to guide and mentor them during the process and then come up with the prototype or formulate a concrete idea on whatever they were working on.
